

Automation Services

Integrated Solutions – Simplified

Put 100 years of automation expertise to work at no cost

Whether you need to build a new production line from scratch or incorporate another process into your existing system, Summit's Automation Team can assist you with planning, procuring, integrating, and start-up. Our goal is to make your automation project as hassle-free as possible – because you have other things to do.

With Summit's Automation Services, you can:

- » **Identify Efficiency Opportunities** – Summit's Automation Team can be onsite to help identify automation and efficiency options for your project. A well-scoped project sets you up for success.
- » **Find Just the Right Equipment** – Our Automation Team works with the leading brands you know and trust.
- » **Make It All Work Together** – Having the right automation components isn't helpful if they don't work together. The Summit Automation Team comes with over 100 years of expertise with a specialty in systems integration.
- » **Exceed Your Goals** – Regardless if you're trying to reduce errors, increase throughput, or manage costs, our Automation Team can help you build the system that exceeds your objectives.

With Summit's Automation Team, you get:

Increased Efficiency

Better Process Control

Tailored Solutions

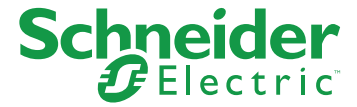

Frictionless Operation
